### PROFESSIONAL EXPERIENCE

---

#### AUREM

##### Full-Stack Mobile Engineer

Abu Dhabi, UAE

Dec 2022 - Aug 2024

- Contributed to the migration of the website frontend from Chakra UI to Tailwind CSS, enhancing consistency and reducing styling time by 30%.
- Automated the Expo build process using GitHub Actions, enabling app updates upon commits to the main branch, saving 7 hours of manual effort.
- Designed and implemented backend APIs with NestJS, including models, entities, mutations, and queries, to support new features from concept to deployment.
- Led end-to-end feature development, managing backend API creation, frontend integration, and handoff to QA for testing.
- Regularly managed build deployments for both the website and React Native app, ensuring seamless updates and functionality.

#### HCL TECHNOLOGIES

##### Front-end Engineer

Warsaw, Poland

Jan 2022- Dec 2022

- Assisted in implementing Micro-Frontends using Single-SPA for the 'My Account' section, supporting modularity and scalability improvements for over 2 million users.
- Supported peers on account-related issues in the work-related website, fostering a collaborative team environment.
- Created documentation to guide team members in setting up new environments for a large-scale project, simplifying onboarding and development processes.

#### PROCEEDIT

##### Junior Full-Stack Engineer

Barcelona, Spain

July 2021- Jan 2022

- Assisted in migrating the company's WordPress website to AWS, enhancing scalability and reliability.
- Contributed to the development and maintenance of the company's website built with Flutter, improving cross-platform functionality and user experience.
- Worked on the website's dashboard, implementing new features and optimizing existing ones to enhance the experience for over 500 users.

### EDUCATION

---

#### VISTULA UNIVERSITY

##### Bachelor of Engineering, Major in Computer Engineering

Warsaw, Poland

2019-2022

- Acted as Student Council advocate, presenting for student needs to administration.
- Provided mentorship to three students through a structured program, supporting their academic and personal growth to help them reach their full potential.
